HURRICANE INVOCATION

The Lord be with you. *Baruch ata Adonay, Eloheinu melech haolam*

Let us pray.

Thank you, Father, for your blessings in our lives, especially the gift of family, community and friends as we await the danger of Hurricane Irma. We pray you protect us from the wind and storm surge that will result. Protect those that protect us. Be with our police officers and firefighters that are there to protect us from the dangers of this storm. Bless and protect them as they protect us.

Lord, as we go into the dangers of Hurricane Irma, we ask you be with our families we have left behind in your loving hands. Be with them and protect them as winds and water assault their world. Calm the seas as you did the seas of Galilee and bring them your peace and comfort.

Bring us home safely, Father, at the end of our shift and let us embrace our loved ones as you embrace us on duty. We trust you, Lord to bring us your love, your protection and peace.

Amen
